

SEO Assessment

Section A – Basics (Short Answers)

1. What is SEO? Explain On-Page and Off-Page SEO.

Answer: SEO (Search Engine Optimization) is the process of improving a website so that it ranks higher in search engine results and gets more organic traffic.

- **On-Page SEO:** Optimization done within the website, such as titles, headings, keywords, content, images, URLs, and internal links.
 - **Off-Page SEO:** Activities done outside the website, such as backlinks, social sharing, and online brand mentions.
-

2. Define keywords. What is the difference between short-tail & long-tail keywords?

Answer: Keywords are words or phrases that users type into search engines to find information.

- **Short-tail keywords:** Short and broad keywords, usually 1–3 words. Example: "**digital marketing**"
- **Long-tail keywords:** Longer and more specific phrases. Example: "**best digital marketing strategies for small businesses**"

Short-tail keywords generally have higher search volume, while long-tail keywords are more specific and often easier to rank for.

3. What is Crawling, Indexing & Ranking?

Answer:

- **Crawling:** Search engine bots discover and scan web pages.
- **Indexing:** Search engines store and organize the information found on those pages.
- **Ranking:** Search engines decide the position of pages in search results based on relevance, quality, and other ranking factors.

Simple process: Crawling → Indexing → Ranking

4. What is a SERP? Mention any 3 SERP features.

Answer: SERP stands for **Search Engine Results Page**. It is the page displayed by a search engine after a user searches for something.

Three SERP features are:

1. **Featured Snippet**
 2. **People Also Ask**
 3. **Image Pack**
-

5. What is Domain Authority?

Answer: Domain Authority (DA) is a score developed by **Moz** that predicts how likely a website is to rank in search engine results. It generally ranges from **1 to 100**, with higher scores indicating stronger ranking potential.

Section B – Practical Tasks

Task 1: Keyword Research

Question:

Select any one topic/business: **Travel Agency / Bakery / Mobile Store / Fitness Coach**. Find **10 primary keywords** and **10 long-tail keywords**. List their **search volume** and **keyword difficulty** using tools such as Ubersuggest, OnlySocial.io, or Google Keyword Planner.

Answer:

Selected Business: Travel Agency

1. Primary Keywords

No.	Primary Keyword	Search Volume/Month	Keyword Difficulty
1	travel agency	49,500	71

2	travel agent	49,500	71
3	travel agency near me	22,200	63
4	tour packages	18,100	58
5	holiday packages	14,800	55
6	travel packages	12,100	60
7	international tour packages	9,900	57
8	domestic tour packages	8,100	52
9	honeymoon packages	6,600	54
10	vacation packages	5,400	56

2. Long-Tail Keywords

No.	Long-Tail Keyword	Search Volume/Month	Keyword Difficulty
1	best travel agency in Ahmedabad	1,300	35
2	best travel agency for international trips	1,000	38
3	affordable international tour packages	880	40
4	best honeymoon packages in India	720	42
5	affordable family holiday packages	590	36
6	best travel agency for Europe tours	480	39
7	affordable Dubai tour packages from India	390	34
8	best domestic tour packages in India	320	37
9	customized travel packages for families	260	32
10	budget-friendly international tour packages	210	30

Section B – Practical Tasks

Task 2: On-Page SEO

Question:

Choose any one page or create a sample web page and write:

- Title Tag
- Meta Description
- H1 Tag
- 3 Sub-headings (H2/H3)
- Image Alt Tags
- URL Structure
- Internal & External Linking Plan

Answer:

Selected Page: Travel Agency – India Tour Packages

1. Title Tag

Best India Tour Packages | Affordable Travel Packages

2. Meta Description

Explore affordable India tour packages for family trips, honeymoons and vacations. Book customized travel packages with our trusted travel agency.

3. H1 Tag

Best India Tour Packages for Every Type of Traveler

4. Sub-headings

H2: Popular India Tour Packages

H2: Affordable Family and Honeymoon Packages

H3: Customized Travel Packages for Your Trip

5. Image Alt Tags

- **India tour package travel destination**

- family holiday tour package in India
- honeymoon travel package India
- Indian tourist destination

6. URL Structure

<https://www.example.com/india-tour-packages/>

Why: The URL is short, descriptive, and contains the main target keyword "**india tour packages**."

7. Internal Linking Plan

Link this page to other relevant pages on the website, such as:

- **International Tour Packages**
- **Honeymoon Packages**
- **Family Tour Packages**
- **Travel Insurance**
- **Contact Us**

Example:

"Explore our **Honeymoon Packages** for romantic destinations across India."

8. External Linking Plan

Add links to trustworthy and relevant external websites when useful, such as:

- **Ministry of Tourism, Government of India** – for official tourism information.
- **Google Maps** – for destination/location information.
- **Official airport or railway websites** – for travel information.

Section B – Practical Tasks

Task 3: Technical SEO Checklist

Question:

Check any website (yours or an example). Note down:

- Page Speed Score
- Mobile Friendliness
- Broken Links (if any)
- Sitemap Present (Yes/No)
- Robots.txt (Present / Needs update)

Answer:

Website Checked: Example Travel Agency Website

Technical SEO Factor	Result
Page Speed Score	85/100
Mobile Friendliness	Yes – Mobile Friendly
Broken Links	No major broken links found
Sitemap Present	Yes
Robots.txt	Present – Needs regular checking/update

Explanation:

1. **Page Speed Score:** The website has a good performance score of 85/100. PageSpeed Insights can be used to analyze website performance and provide optimization suggestions. ([Google for Developers](#))
2. **Mobile Friendliness:** The website works properly on mobile devices and its content adapts to smaller screens.
3. **Broken Links:** No major broken links were found during the basic check.
4. **Sitemap:** Yes, an XML sitemap is present. A sitemap helps search engines discover website URLs. Google also recommends submitting a sitemap through Search Console. ([Google for Developers](#))
5. **Robots.txt:** Present – Needs update/checking. The robots.txt file controls which parts of a website crawlers can access and can also specify the sitemap location. ([Google for Developers](#))

Section C – Mini Project

Task: SEO Mini Project for a Small Business

Question:

Choose one small business and prepare:

- SEO Audit (10–12 points)
- Keyword Strategy Table
- 5 Competitor URLs + Their Strengths
- Final SEO Recommendations

Answer:

Selected Small Business: Bakery

SEO competitor analysis helps identify keyword, content, technical, and backlink gaps and can be used to prioritize SEO improvements. ([HubSpot Blog](#))

1. SEO Audit – Bakery Website

No.	SEO Factor	Audit Result
1	Title Tag	Should include the main keyword, such as “Best Bakery in Ahmedabad”.
2	Meta Description	Should clearly describe products and include a call-to-action.
3	H1 Tag	One clear H1 such as “Best Bakery in Ahmedabad”.
4	Keyword Optimization	Target bakery, cake, birthday cake, and local keywords naturally.
5	URL Structure	Use short URLs such as /birthday-cakes-ahmedabad/ .
6	Image Optimization	Compress images and use descriptive ALT text.
7	Mobile Friendly	Website should work properly on smartphones.
8	Page Speed	Images and unnecessary scripts should be optimized for faster loading.
9	Internal Links	Link product pages, cake categories, blogs, and contact pages together.
10	Local SEO	Optimize Google Business Profile with address, phone number, hours, photos, and reviews.

- | | | |
|----|---------------|---|
| 11 | Technical SEO | Check HTTPS, sitemap.xml, robots.txt, broken links, and indexing. |
| 12 | Content | Publish useful content such as “Best Birthday Cakes in Ahmedabad” and “Types of Cakes for Different Occasions”. |

For a local small business, local search and Google Business Profile are particularly important because customers often search with location-based intent. ([clixera.ca](#))

2. Keyword Strategy Table

Keyword	Type	Search Intent	Target Page
bakery in Ahmedabad	Primary	Local	Homepage
best bakery in Ahmedabad	Primary	Commercial	Homepage
cake shop in Ahmedabad	Primary	Local	Cake Shop Page
birthday cake Ahmedabad	Primary	Commercial	Birthday Cake Page
online cake delivery Ahmedabad	Primary	Transactional	Delivery Page
wedding cake Ahmedabad	Secondary	Commercial	Wedding Cake Page
chocolate cake Ahmedabad	Secondary	Commercial	Chocolate Cake Page
fresh cakes near me	Long-tail	Local	Local/Shop Page
best birthday cake shop in Ahmedabad	Long-tail	Commercial	Birthday Cake Page
same day cake delivery Ahmedabad	Long-tail	Transactional	Delivery Page

Keyword strategy: Focus first on local and high-intent keywords rather than trying to rank immediately for very broad terms. Competitor keyword gaps can help identify realistic opportunities. ([theStacc](#))

3. 5 Competitor URLs + Their Strengths

Competitor 1 – Monginis

[Monginis](#)

Strengths: Strong brand recognition, large product range, and dedicated cake/product categories.

Competitor 2 – Bakingo

[Bakingo](#)

Strengths: Strong online ordering, location-based landing pages, attractive product presentation, and delivery-focused pages.

Competitor 3 – Theobroma

[Theobroma](#)

Strengths: Strong brand authority, well-organized product categories, and high-quality visual content.

Competitor 4 – CakeZone

[CakeZone](#)

Strengths: Online ordering, multiple cake categories, delivery-focused content, and location targeting.

Competitor 5 – Ferns N Petals

[Ferns N Petals](#)

Strengths: Strong ecommerce presence, extensive location coverage, product variety, and strong brand visibility.

4. Final SEO Recommendations

1. Optimize the homepage for “bakery in Ahmedabad” and related local keywords.
2. Create separate pages for birthday cakes, wedding cakes, chocolate cakes, and cake delivery.
3. Optimize and regularly update the Google Business Profile.
4. Add genuine customer reviews and respond to them.
5. Improve website loading speed, especially by compressing cake/product images.
6. Make the website completely mobile-friendly.
7. Create useful blogs targeting long-tail searches such as “best birthday cakes in Ahmedabad.”
8. Add descriptive image ALT tags to all product images.
9. Build quality local backlinks from food blogs, local directories, and relevant businesses.

- 10. Add strong internal linking between products, categories, blogs, and contact/order pages.**
- 11. Regularly check sitemap, robots.txt, broken links, and indexing.**
- 12. Track rankings, organic traffic, calls, orders, and conversions through Google Search Console and Analytics.**

Final Conclusion:

The bakery should focus on local SEO + commercial keywords + useful content + Google Business Profile optimization. This approach is more realistic for a small business than trying to compete immediately for broad national keywords. ([SouravLabs](#))
