

Below is a **complete, simple, assignment-ready answer** with each question followed by its answer. I'll use **Zomato** for Questions 1–2, **Swiggy** for Question 3, and **wireless headphones** for Question 4.

1. Pick any app you use daily and list 3 keywords/search phrases for TOFU, MOFU, and BOFU.

Chosen App: Zomato

Funnel Stage	Keyword / Search Phrase	Why is it in this stage?
TOFU	Best food delivery apps in India	The user is broadly researching food delivery options and has not decided which app to use.
TOFU	How does online food delivery work?	The user is looking for general information rather than trying to purchase anything immediately.
TOFU	Best apps for ordering food online	The user is exploring different solutions and may compare several apps.
MOFU	Zomato vs Swiggy	The user already knows about food delivery apps and is comparing specific options.
MOFU	Zomato offers and discounts	The user is researching Zomato's benefits before deciding whether to use it.
MOFU	Zomato customer reviews	The user is evaluating the app and looking for opinions from other users.
BOFU	Zomato order food online	The user has high purchase intent and is ready to use the app.
BOFU	Zomato restaurants near me	The user is looking for a restaurant and is close to placing an order.
BOFU	Order pizza on Zomato	The search is specific and indicates that the user wants to place an order immediately.

Funnel Meaning

- **TOFU (Top of Funnel):** User is discovering and researching a problem or category.

- **MOFU (Middle of Funnel):** User is considering different solutions and comparing options.
 - **BOFU (Bottom of Funnel):** User has strong intent and is ready to take action, such as ordering.
-

2. Content Mapping Worksheet

Chosen App: Zomato

The following can be used as a simple **Excel/Google Sheets** content mapping worksheet:

Funnel Stage	Keyword	User Intent	Suitable Content Type	Example Content
TOFU	Best food delivery apps in India	Discover different food delivery options	Blog Post	“7 Best Food Delivery Apps in India for Convenient Online Ordering”
MOFU	Zomato vs Swiggy	Compare two food delivery platforms	Comparison Article	“Zomato vs Swiggy: Which Food Delivery App Is Better?”
BOFU	Zomato restaurants near me	Find a restaurant and order food	Restaurant/Product Page	“Top Restaurants Near You – Order Food on Zomato”

Simple Content Mapping

TOFU → Educational Blog → Awareness

MOFU → Comparison/Review → Consideration

BOFU → Restaurant/Product Page → Conversion

3. Scenario: A User Moves from TOFU to BOFU for Swiggy

Scenario

Rahul wants to order food online but has never used a food delivery app before. He goes through all three stages of the marketing funnel.

TOFU – Awareness

Rahul first searches:

“Best food delivery apps in India”

He reads a blog comparing different food delivery apps and learns about **Swiggy, Zomato, and other options**.

Content he interacts with:

- Blog posts
- “Best food delivery apps” articles
- Educational videos

At this stage, Rahul is **learning and discovering**, not yet ready to order.

MOFU – Consideration

After learning about the options, Rahul searches:

“Swiggy vs Zomato”

He reads a comparison article and watches a review video about their **delivery speed, restaurant selection, offers, and user experience**.

Content he interacts with:

- Comparison articles
- Customer reviews
- YouTube review videos
- Offers and feature pages

Now Rahul is **considering Swiggy as a possible choice**.

BOFU – Conversion

Rahul decides to use Swiggy and searches:

“Swiggy restaurants near me”

He opens Swiggy, searches for a nearby restaurant, checks the menu and reviews, selects his food, and places the order.

Content he interacts with:

- Restaurant pages
- Menus
- Ratings and reviews
- Offers/coupons
- Checkout/order page

User Journey

“Best food delivery apps”

↓

TOFU – Awareness

↓

Reads educational content

↓

“Swiggy vs Zomato”

↓

MOFU – Consideration

↓

Reads reviews/comparison

↓

“Swiggy restaurants near me”

↓

BOFU – Conversion

↓

Places food order

4. Choose a product/service and identify TOFU, MOFU, and BOFU keywords

Chosen Product: Wireless Headphones

Funnel Stage	Keyword	User Intent	Catchy Content Headline
---------------------	----------------	--------------------	--------------------------------

TOFU	Best headphones for music	User is researching headphones and learning what options are available.	“Best Headphones for Music: A Complete Guide for Better Sound”
MOFU	Best wireless headphones under ₹5,000	User has narrowed down their choices and is comparing products within a specific budget.	“10 Best Wireless Headphones Under ₹5,000 Worth Buying in 2026”
BOFU	Buy Sony wireless headphones online	User has selected a specific brand/product and is ready to purchase.	“Buy Sony Wireless Headphones Online: Best Deals & Offers”

Funnel Summary

TOFU:

 *“Best headphones for music”* → **Learn**

MOFU:

 *“Best wireless headphones under ₹5,000”* → **Compare**

BOFU:

 *“Buy Sony wireless headphones online”* → **Purchase**

Final Conclusion

The marketing funnel helps businesses understand **what users are searching for at different stages of their buying journey**. TOFU content focuses on **awareness and education**, MOFU content helps users **compare and evaluate options**, while BOFU content encourages users to **take action or make a purchase**.
